During a telephone interview on March 22, 2001, between Examiner Terry Dyson and Jeffrey S. Standley of this office, Examiner Dyson recommended that this 312(a) Amendment be faxed to her today. It should be noted that the amendment serves to clarify the formal drawings submitted in this matter; specifically, by adding a brief description for Fig. 3B. This amendment does not insert new subject matter, nor does it require withdrawal of the application from the Issue Branch in order to reopen examination.

It respectfully is requested that this amendment be inserted prior to issuance of the patent.

Respectfully submitted,
